

Become a SPONSOR for the TRANSFORMATION of the GLOBAL MOBILITY SECTOR

The mobility of people, goods and information is one of the basic prerequisites for a socially and environmentally compatible and an economically viable future for Germany, for Europe and also for emerging regions such as the African continent. Effective transport structures are the basis for the exchange of goods, services and knowledge. Access to mobility gives people access to markets, jobs, education and health - and can play a decisive role in combating poverty.

The majority of the mobility culture on earth is under the influence of Chinese-Asian and/or Western Europe. The motorization implemented according to western, apparently "progressive" models, which is currently massively increasing, leads to an increased emission of climate-damaging greenhouse gases and health-endangering emissions. The rapidly growing number of private vehicles puts pressure on the infrastructure, which in turn has a negative impact on economic processes - and leads to a disproportionately high number of traffic victims.

The turnaround in mobility and traffic must not be a privilege for individual regions of the world. Tomorrow's clean, safe and affordable mobility must be shaped and won today with partners. This is precisely what we are committed to with our international network.

As a Sponsor ...

- *make people in developing countries more mobile*
- *ensure a transport policy for all people*
- *initiate knowledge transfer and innovative transport solutions*
- *make a contribution to climate protection*

A SUPPORTER: any amount from €25,- helps and is very welcome.

B SPONSOR: €250,- (On request, you will be listed on our website as a sponsor and will receive a poster (A3) or a sign 25x25 tailored to your needs (e.g. for posting on your business premises).

C INITIATOR: €1500,- (On request you will be mentioned on our website and in publications as an initiator and will receive a poster (A3) or a sign 25x25 tailored to your needs (e.g. for display on your business premises). In addition, we will organize a multimedia lecture event for you at your company/for your employees about the project initiated by your donations with one of our African partners).

As a sponsor, you can deduct your donation from your tax bill.

We look forward to welcoming you!

Yours faithfully,

Maximilian Heinrich
